EQUAL SUFFRAGE FOR WOMEN.

There is no reason why the female suffragists of this country should feel discouraged, for with the addition of California to the equal suffrage states six states are now in line with equal rights for all.

And in four foreign countries the women are regarded as intelligent enough to share the rights of citizenship with the men.

The following table shows the population of states and countries which women exercise equal suffrage: English Speaking.

A SMALL VOTE.

A town meeting at Norwich or Tuesday last decided against acceptng voting machines and appropriating \$6,000 for the purchase of them, a vote of 237 to 157. While for a town meeting vote that was decisive, yet the entire vote of 394 was small for a city in which the full vote on national affairs is over 5,000. Mrs. John Hays Hammond, president of the women's welfare department of the National Civic federation, has done a great deal for the comfort of the hundreds of working women in the departments of the government. They succeeded in having conveniences added to old buildings and were rewarded by seeing the care taken to make the new buildings suited to the needs of women working in them.
